PROGRAMMING & ANALYSIS
COURSE SYLLABUS**

Course Title and Number: Database Management with SQL, CGS2540 Sections 001, 0M1, 0M2		Instructor: Debbie Reid	
Year and Term: 2018 Fall	Course Credits: 03	Office Location: N-210	
Office Phone: (352)395-4402	Office Hours: See instructor web page	Class Location: Section 001 – N116 Section 0M1 – online Section 0M2 – online	
Meeting Time/Days: Section 001: MW 9:30am – 10:45am Sections 0M1/0M2: online		Email Address: debbie.reid@sfcollge.edu	
Web Page Address: http://home.ite.sfcollge.edu/~debbie.reid		Fax Number: 352.395.4154	

Course Description	This course provides a basic introduction to database management principles and structures of Structured Query Language as used in professional database creation and management. The emphasis will be on learning the basic structures including all forms of the select clause, manipulating table data through SQL queries, managing data in tables, querying joined tables, and subqueries. The student will also be introduced to programming views, transactions, and stored procedures.
Prerequisites	☒ COP2000 with a grade of C or better.
Course Objectives Reflecting Expected Student Learning Outcomes	<ul style="list-style-type: none"> • Understand different types of databases • Understand the anatomy of a relational database • Understand data integrity, constraints, and relationships • Create and understand the select query construct • Understand SQL data types • Understand various expressions and the NULL value • Use various filters to fine-tune the results of a query • Use multiple conditions within a query • Use unions • Use inner and outer joins • Understand how to create subqueries • Understand and use aggregate functions • Understand how to group data with the GROUP BY and HAVING clauses • Understand how to update, insert, and delete sets of data • Understand the basic concepts of creating a view of a database • Understand the basic concepts of creating, modifying, and deleting transactions, stored procedures, and functions to tables in a database

Grading

Course Requirements:

Students who need reasonable accommodation should contact the instructor or call the Disability Resources Center at 352-395-4400.

Policies on Missed Exams and Late Work:

- One project grade or one exam grade will be dropped from final grade computation.
- All exams will be scheduled in advance over a period of several days. No make-up exams will be given.
- All projects and project due dates are posted in advance. No late exercise or exam submissions will be allowed.

Grading Scale and Standards:

Grade Scale	
90 – 100	A
85 – 89.9	B+
80 – 84.9	B
75 – 79.9	C+
70 – 74.9	C
65 – 69.9	D+
60 – 64.9	D
< 60	F

Grade Calculation	
Projects	45%
Exams	45%
Final Exam	10%
Total	100%

Important Information

For classes that meet on campus, attendance is required. Regular attendance will be critical to success in this course. It will help guide you toward successful completion of your projects and assignments. Students are responsible for getting all work and lecture notes missed due to absence.

All sections of this course will use the Canvas online classroom. This is where you will go to get assignments, check due dates, take your exams, upload your projects, communicate with your instructor and classmates, and participate in discussions. In an online course, your attendance is required via your participation in Canvas discussions or email, as specified by the instructor. You must log on to Canvas at least twice a week and check for any new information and/or updates

You must turn in all Projects on the due date by the time and method indicated in the instructions. No extensions are given; therefore you must make sure to start on assignments early. It is understood that computers are not perfect. However an excuse such as, "the computer wasn't working" is not acceptable because you can always use another computer in the labs provided at Santa Fe College. ***Absolutely no late Assignments are accepted.***

	<p>Finals week will consist of meeting at the designated time and taking a Final Exam. Online students will take the Final Exam online.</p> <p>All Exams will be announced in advance. No make-up Exams will be given under any circumstances.</p> <p>You have one week from the time a homework or exam grade is posted to contest your grade. You must make your case for points you think you deserve in writing through Canvas email. After that time, your grade will stand.</p> <p>Assignments must be organized and submitted following the course guidelines and in the specified format. Depending on the assignment this might include any or all of the following: submitting a printout, uploading to the Web, sending via email, or uploading to a Canvas Dropbox. Methods other than those specified by your instructor are not acceptable.</p> <p>All work must be completed using MySQL. MySQL is a free download. Note that if you submit work completed in programs other than the designated ones, the assignment cannot be accepted.</p> <p>If you are working on assignments at home, it is your responsibility to maintain your computer system. Requirements cannot be waived due to problems with your hardware, software, or Internet connection. Campus labs can be used to complete your work.</p>
Text(s)	<p>Text(s), Title(s), Author(s) and Edition(s):</p> <p><i>SQL Queries for Mere Mortals</i>, by Viescas and Hernandez, 3th Edition, ISBN: 978-0-321-99247-5</p>
Required Course Materials	<p>Software requirements:</p> <p>All materials including tutorials and links to supplementary readings, are available for free from the ITE department, online, or posted on Canvas. You can print any assignment, activity or reference if you wish.</p>
Course Software	<p>In order to stay in compliance with all copyright laws, download MySQL from only mysql.com.</p>
<p>Term Calendar <i>(Tentative: The instructor reserves the right to alter dates of presentations and exams/projects.)</i></p>	<p>Topics to be Covered and Corresponding Chapters in the text:</p> <ul style="list-style-type: none"> • Relational Databases and SQL • Creating a Simple Query • Getting More than Simple Columns • Filtering Data • Inner and Outer Joins • Unions • Subqueries • Aggregate Functions

	<ul style="list-style-type: none"> • Grouping Data • Filtering Grouped Data • Inserting/Updating/Deleting Sets of Data • Views • Transactions • Stored Procedures • Stored Functions 																		
Syllabus Agreement	Send your instructor a Canvas email stating the following: <i>“I have read, understand, and agree to the course syllabus”</i> no later than the first week of class.

Sep 3	Labor Day Holiday – Campus Closed																		
Nov 1	Last day to withdraw with a ‘W’																		
Nov 2	UF Homecoming – Campus Closed																		
Nov 12	Veterans Day Holiday – Campus Closed																		
Nov 22 – 24	Thanksgiving Holiday – Campus Closed																		
Dec 7	Classes end																		

INFORMATION TECHNOLOGY EDUCATION

Policies and Guidelines

Please note that components marked with asterisk (*) require specific language.

Cell Phone Use Policy

Given the disruptive potential posed by cell phones, students are required to keep cell phones off during class lectures. Use of cell phones during lab exercises are permissible, but please consider those around you

***Children in the Classroom**

Children represent a disruptive element for the classroom. They also increase the risk of accidents occurring in the lab. For those reasons, children should not be brought to either the classroom or the laboratory.

***Academic Honesty: Plagiarism And Cheating**

Academic honesty is expected, and the instructor reserves the right to respond to cheating, plagiarizing, or other forms of unethical behavior with penalties up to and including removal from the class and/or failure in the course. The instructor also reserves the right to make necessary adjustments to the syllabus.

***Academic Ethics and Confidentiality**

It is the responsibility of everyone engaged in the learning experience to respect the rights and feelings of their fellow learners. Information gathered in the classroom and from on-line discussions and exercises is to be considered confidential. At the same time, students must recognize that the instructor and the College cannot guarantee the confidentiality of what the student may choose to disclose. Students must use their own discretion when engaging in classroom discussion.

***Classroom Behavior**

Instructors have the responsibility to set and maintain standards of classroom behavior appropriate to the discipline and method of teaching. Students may not engage in any activity which the instructor deems disruptive or counterproductive to the goals of the class. Students are required to keep cell phones off during class lectures, unless there is permission in advance from the instructor. Instructors have the right to remove offending students from class. Repetition of the offense may result in expulsion from the course. Students are expected to be courteous to others and that includes coming to class on time.

***Student Conduct**

Opt #1: Students must read and be familiar with the Code of Conduct as published in the Student Handbook, policies and procedures as outlined in campus publications, Santa Fe policies.

Opt. #2: Students in this (or any) program of study should be especially aware of the severe consequences of plagiarism. Students that submit work that is not their own will be dealt with quickly and severely.

Opt. #3: Students that have a concern regarding any inappropriate conduct should bring it to the attention of their instructor or Department Chair immediately. Inappropriate conduct situations will be reviewed immediately.

Opt. #4: Students taking this course should be aware of the potential diversity of the artistic perception of the participants - particularly as applicable to violence, artistic statements, and nudity. Please keep your material and remarks professional and appropriate and be sensitive to individuals that have views different than your own.

***Student Rights and Responsibilities**

The purpose of this document is to provide students with a general overview of both their rights and responsibilities as members of the Santa Fe College community. For a complete list of students' rights and responsibilities go to:

: <https://catalog.sfcollege.edu/content.php?catoid=4&navoid=65>

***Americans with Disability Act – Disability Accommodation Statement**

If you are a student with a disability: In compliance with Santa Fe College policy and equal access laws, I am available to discuss appropriate academic accommodations that you may require as a student with a disability. Requests for academic accommodations need to be made during the first week of the semester (except for unusual circumstances) so arrangements can be made. You must be registered with Disabilities Resource Center (DRC) in S-229 for disability verification and determination of reasonable academic accommodations. For more information, see:

http://www.sfcollege.edu/student/drc/index.php?section=faculty_resources/rights_responsibilities

***Discrimination/Harassment Policy**

SF prohibits any form of discrimination or sexual harassment among students, faculty and staff. For further information, refer to College Rule 2.8 at:

https://www.sfcollege.edu/Assets/sf/rules/pdfs/Rule_2/2_8.pdf
